Help Us Give Romanian Children a Summer to Remember

Summer Outings for Orphan / Poor Gypsy Children

A trip to a zoo can be life-changing for a child who has never seen an exotic animal. McDonalds can taste like a gourmet meal to a child who has never eaten at a restaurant.

Caprice Gatea says this about the poor Gypsy children she works with, 'Most of our children have never been farther than the next town, where they are usually sent by their families to beg or hunt through the town people's garbage. They know far too little of the beauty of the world and God's creation.'

Our summer trips for children are designed to be fun and explorative. They help poor and orphan children discover a bigger world, and inspire them to realize greater possibilities exist for each one of them.

Mountains, swimming, castles, bowling, tasty food, etc. are all part of our summer fun. It is such a joy to see smiles and amazement on the children's faces.

Please consider partnering with us financially so we may give the children life-changing experiences to remember this summer.
