

Dear friends,

Ukrainian women and children are arriving at the Romanian border in ever increasing numbers. Our Romanian partners immediately went to the border to help. They have been moved to tears as children ask them if they will ever see their fathers again. These families were forced out of their homes not knowing where they were going. They arrive in Romania with few resources to even care for themselves. They are strangers in a strange land among a people who speak a foreign language. Our hearts break for them and we are helping!

Our partners have escorted families to local hotels and are providing daily food. Now, as the amount of refugees increases, their relief effort is broadening. Romanians across the country have volunteered to open their homes to care for these needy people.

We asked our partners how we may help. They said they need money to buy food, money to pay for hotels, money to transport people, and money to buy clothes. Your donations are going directly and quickly to our friends on the ground who are providing immediate assistance for shocked and devastated women and children. Please see the attached photos of our partners helping some of the first refugees into Romania.

We have opened a fund to help care for Ukrainian refugees. If you would like to help, you may donate by sending a check to:

Eleos International Ministries
PO Box 5092
Old Bridge, NJ 08857

or on our website at:

eleosinternational.org/donations.asp

If you would like to partner with us, to spread the word, and help us raise funds to help these refugees, please let us know what information you need. Together, with our Romanian partners, we are providing care and safety for suffering women and children as they are temporarily displaced from their fathers, husbands, and brothers.

Thank you for helping,
Ed Rosella
